Building is situated centrally on Main Street, south of railroad, and is at present occupied as a hall by the Miners' Union. Building is modern and substantially built and has admirable surroundings, and may be converted into a business house or private residence. Building is 24 by 35 feet, has a full-sized concrete basement, and is plastered and finished in first-class style throughout. Apply for terms, etc., etc., to "BLAIRMORE ENTERPRISE" - BLAIRMORE, ALBERTA

BRISCO'S THE STORE FOR MEN Victoria Street Blairmore, Alta.

Successor to Smith & Margett, - The Corner Store

Sovereign Brand Ready-made Clothing, price \$0.00 to \$25.00. Fit Reform, made-to-measure Clothing, prices \$25.00 to \$40.00. House of Hobberlin "made-to-measure Clothing, \$18 to \$35. Slater Invictus Boots and Shoes, Ties, Caps, Shirts, Gloves, Socks, Blankets, Rubbers, etc., etc.

Happenings in and Around Blairmore

J. Hamar left on Saturday morning for Nelson, B. C., where he will reside in future.

Mrs. W. Harrison and Miss E. J. Kidd are taking over the management of the Conestoga Lodge.

A pleasant farewell party took place at the residence of Mr. R. C. Green on Friday night last.

M. B. Dawson will shortly open a plumbing and heating shop in the old P. Burns butcher shop.

All the business places will be closed every Wednesday afternoon until the middle of September next.

There will be Easter services at the Baptist church Sunday morning and evening. Special music in the evening.

The Alberta Trading Co. will remain open until 7 p.m. on Thursday and will be closed on Good Friday—Gales & Hamel.

Eggs for Hatching—Extra fine-bred Barred Rocks—\$1.00 per setting of 15. Apply to

MRS. ROBERGE, - McLaren's Mill.

On Monday evening at 8 o'clock a congregational meeting will be held in the Mission Hall. A full attendance is urgently requested to meet finally with the church site and building.

W. Howe met with an accident at the cement works on Tuesday, which will confine him to his home for a while. Mr. Howe fell from the roof of the grinding shed which he had been repairing, and received slight injuries to his side and neck.

R. G. McNeillie, district passenger agent of the C. P. R., was in Blairmore on Tuesday. When asked when his company would make this a regular stopping place for the "flyer," Mr. McNeillie was not prepared to say but hoped that the time was not far distant.

Another Brick Building for Blairmore

Frayer & Sinclair have been awarded the contract for the erection of a large brick building for W. J. Budd.

This building will be eighty feet long, fifty wide and will have two stories. It will be of solid brick, of Blairmore's own manufacture, and will be erected on Victoria street, between Sixth and Seventh avenues.

This will make the third business building that Mr. Budd has had erected inside of six months.

Mr. Budd, as many of our readers know, is general manager of the Rocky Mountain Cement Company and he also holds a similar position with the Blairmore Brick Works. These two large industries, in which Mr. Budd is largely interested, have been very successfully operated since he assumed control.

Brick is now being hauled to the site of this building. The frame building, which is being used as a pool room, has been moved across the street and work on the brick structure will start immediately.

Born

At Burmis, on Friday 7th inst., to Mr. and Mrs. E. T. Fitzsimmons, a son.

GREAT ACTIVITY

Prevails at Blairmore—More Buildings Are Being Erected—An Era of Expansion

NEW INDUSTRIES UNDER WAY

Business Is brisk in Spite of the Strike—The Town of Great Opportunities

Blairmore is entering upon an era of expansion which bids fair to exceed the expectations of the most optimistic of us. New buildings are being erected, business men are extending and enlarging their operations and new industries are heading our way. Some of our citizens are doing considerable to make Blairmore the important place she rightly deserves.

Although a coal miners' strike prevails, Blairmore is not by any means stagnant. The builders are busier now than they ever were. The cement mill and lime kilns are going at their full capacity, the saw mills have just resumed operations and their daily output is greater than any time previous, while Blairmore Brick Works, with large, renovated and well equipped plant, is about to start operations again when the daily output will be about 45,000 high-grade bricks.

We understand also that negotiations are in progress for the establishment of several other industries in Blairmore. We are not in a position just now to divulge the names of those enterprises but we hope to be able to do so shortly.

That Blairmore is an ideal place for those who are enterprising and wish to establish good legitimate industries of the kind that would find a market in British Columbia or Alberta, can be seen at a glance.

We have the raw material here for sash and door factory, iron foundry, pulp and paper mills, concrete block manufacture, and box and match factory. We also need a steam laundry, wholesale houses of every description, etc., etc. Truly, this is the land of golden opportunities. This is the promised land. Arise, gird thyself, come and enjoy its blessings.

Operations Resumed

The saw mill at the west end of Blairmore resumed operations on Monday last and is now making a larger daily output than ever. This mill was visited by fire on the morning of July 17th last and the entire plant was reduced to ashes.

Since then a new and larger plant has been installed and general improvements have been effected around the mill. This is the first time that the plant has been in operation since the conflagration of last summer. We wish the new proprietors, the newly appointed manager, Wm. Barratt and the entire force of workmen success during the coming season and that Kind Providence will protect them from any further devastation.

Happenings in and Around Blairmore

W. G. Campbell, of Calgary, was in town on Tuesday.

D. C. Drain was a visitor to Lethbridge on Saturday.

Mrs. D. C. Drain and daughter returned home from Lethbridge on Saturday.

C. W. Jones, representing the Heintzman Piano Co., visited us on Tuesday.

Mr. and Mrs. Wilfred Wolstenholme returned Friday from a week's visit to Calgary.

Blairmore Lodge, No. 68, I. O. O. F., will celebrate the 93rd anniversary of the order on Sunday, 30th inst., by a church parade.

On Sunday morning last, Mrs. D. A. Sinclair was informed of the death of her brother John, at Watiskaw. Mr. and Mrs. Sinclair left that night to attend the funeral.

Mr. and Mrs. J. B. Reuter, now of Lethbridge, but formerly of Blairmore, came to town on Saturday. Mr. Reuter returned home on Tuesday while Mrs. Reuter remained here until Thursday.

Special Easter services will be conducted on Sunday next in the Presbyterian mission hall. There will be special and appropriate music. Morning subject: "The empty Tomb, and the satisfied Heart." Evening subject: "The Bethany Vision."

On Thursday night last the members of Blairmore Lodge, I. O. O. F., gave a successful smoker and banquet in honor of several of their brethren who proposed to make their departure for new fields. At the hall a programme of speeches etc., was gone through, after which about thirty sat down to a sumptuous banquet, where toasts, music and merriment were held till the approach of morning.

Fifty-four Acres

For Cemetery

A meeting of the Blairmore council was held in W. A. Beebe's office on Monday evening last. Councillors L. Dutil and H. E. Lyon were present. The chairman reported that he had some very important matters elsewhere to attend to and was not able to be present.

A communication was read from the federal government in which it was stated that the government had transferred to the town of Blairmore fifty-four acres of land on the north side of the river to be used as a cemetery.

Considerable time was spent in trying to decide on a nuisance ground but no definite action was taken.

This is about all of the business transacted and the meeting adjourned until Wednesday night.

McLaren's Mill Sold

A big deal has just been put through whereby A. G. Peuchen, of Toronto, becomes owner of the saw mill and entire holdings of Senator Peter McLaren, situated at the west end of Blairmore. The new proprietor will take charge on the 1st of May.

Fire at Blairmore

About 8:30 o'clock on Tuesday evening the south-west section of Blairmore was brilliantly illuminated by a fire which occurred in a house situated on the corner of Fifth avenue and Woodward street and occupied by A. F. McCrea. As soon as the fire was discovered a large crowd hurried to the scene of the conflagration but the flames had got control of the building and it was impossible to save it or any of its contents. About twelve hundred people stood round and watched this devastation, being unable to impede its progress.

There was no person in the building at the time the fire started. What caused the fire is a mystery. The building and most of the furniture were owned by W. Colard, of Red Deer who carried \$2,300 insurance. Mr. and Mrs. McCrea lost a \$300 piano, about \$300 in cash and all their clothes with exception of what they stood in.

BLAIRMORE, ALBERTA

AFTER SUFFERING YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

Fox Creek, N.B.—I have always had pains in my weak bones there, and often after my meals my food would digest slowly and cause some distress. Lydia E. Pinkham's Vegetable Compound has done much good. I am stronger, digestion is better, and I have more energy with ambition. I have encouraged many mothers of families to take it, and have seen great results in the papers."—Mrs. WILLIAM BOURQUE, Fox Creek, N.B., Canada.

The above is only one of the thousand cases which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt the value of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women and children. It has saved many lives, and that every suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all men to come to her for advice. She has guidance thousands to health and her advice is free.

Women are apt to desire beauty more than brains, but they know their own business.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself, as well as presented it to a private physician when a treatment was required and have never failed to get the desired effect.

O. A. KING, M.D.

An optimist is a man born without a liver.

Sweet and palatable Mother Gravel Worm Exterminator is acceptable to children, as it does its work surely and rapidly.

It is a terrible thing for one man to be right when all the world is wrong. What an awful responsibility it puts on him. And yet how many of us daily assume it without a quiver.

For Skin Health

A lifetime of disfigurement and suffering often results from improper treatment of the skin or neglect of simple skin afflictions. Cuticura Soap, assisted by Cuticura Ointment, affords the purest, sweetest and most economical method of caring for the complexion, preventing minor eruptions from becoming chronic, and speedily dispelling severe eczemas and other torturing humors, itchings and irritations, from infancy to age.

Cuticura Soap and Ointment are sold by druggists everywhere. Foster Drug & Chem. Co., Boston, Mass., manufacturers. See our Catalogue Book on the care of skin and scalp.

W. N. U. No. 838.

"THE SARN MAJOR."

About the "Crowned" King of the Lower Ranks.

"Sergeant-Majors are unpopular," said ex-Sergeant-Major Robert Edward in his recent humorous law suit. And he was absolutely right.

In the days of Queen Elizabeth the sergeant-major could afford to ignore this. So he raised his sort of brigadier staff with pay at \$5 a day just double the colonel's rate.

But, alas! to fall on evil days, for by 1600 that princely salary had been cut down to three times as much to-day.

And in his way he approximates to what Tommy Atkins calls "a tin god".

But, as every man is still at work, the officers who have no departmental duties done, fly to the sergeant-major. If rubbish has to be cleared away or a trench dug, or baggage loaded, or a horse harnessed, or a gun fired, the sergeant-major has to "find" the men.

His chief duty is to see that every body does his duty. He cannot, therefore, expect popularity by any more than a hangman.

This is the terrible Sergeant-Major's life, generally spent in early morning, and consisting mostly of rapid evolutions that mean torture to the older non-commissioned officers.

There is a secret to it, however.

By day there is a secret to it.

If you plead a blister on one foot, he may send you down to the gymnasium for booting practice on the other.

If you have a sprained ankle, he may have you harnessed to the heavy roller on the officers' cricket pitch.

One bold Tommy pleaded exemption from church parade on the ground that he was an agnostic.

The sergeant-major assumed an expression of intense interest.

"Don't you believe in the Ten Commandments?" he mildly asked the poor, free-thinker.

"Not at all," was the reply.

"What! Not the rule about keeping the Sabbath?"

"No, sir."

"Well, you're the very man I've been looking for to scrub out the cantonments!"

The sergeant-major, who had crooked arms of course, and was not in the rank of non-commissioned ranks. He must always be addressed as "Sir"; and, if other staff-sergeants have the privilege of gold lace and plumes, he has only "the regulation"—the only man who ever unbuttoned his coat.

Yet, with all these privileges, the sergeant-major cannot escape his genuine. He is responsible for seeing that the canton and sergeants' mess are cleared out at night; he has to make the cap of privates better than himself; and, when he is "in view" with the colonel, and their stripes as well, if they're reduced. But he has a goodly compensation of marching at the head of the regiment next behind the colonel.

The S.M. is generally credited with the ability to make a camp a three-potato meal, and if the camp is known as marking-time, a lack of harmony marks a squad consisting of only one recruit. The sergeant-major is the only possible hero who could solve the puzzle as to which recruit is out of step!

It takes a woman to start to something like a letter on sixteen pages, mail it, and then remember she forgot to put in any of the things she wrote it for.

BUY COCKSHUTT DRILLS

ENGINE GANG, NEW JEWEL AND OTHERS—SEE DEALER.

Coronation Gift to King George V.

The royal subjects of His Majesty, in every part of the British Empire, bearing the Christian name of George, are invited to unite in making a gift to His Majesty on the occasion of his coronation, the most auspicious event of his life.

The contribution may be as small a sum as \$1, but in no case may it exceed five dollars.

A list of the names of all donors, but not the amounts given by each, will be sent to the King, who will then determine the present is to take.

From the interest already aroused it is anticipated that there will be a large number of contributions, and that a sum will be raised to pay for a handsome personal ornament and still leave a large sum to be devoted to charity.

His Excellency, Earl Grey, is taking the interest in this fitting tribute, and at his request, His Honor, Sir Daniel H. McMillan, is initiating the movement, and has agreed to contribute to allow all sums contributed in this province to be sent to him at Government House.

The more people can talk about the weather the less they can talk about useful things.

The Man—"Look here—once and for all—are you and I going to get married?"

The Woman—"I'm going to... I don't care what you do."—Toledo Blade.

Minard's Liniment Cures Dandruff

The more people can talk about the weather the less they can talk about useful things.

A BOOK FOR MOTHERS

Every mother is naturally anxious for information that will enable her to keep the little ones in good health. The Dr. Willard's Medicine Co. have issued a little book which contains a great deal of information on the care of babies and young children that every mother will find it worth while to keep.

Staplessness—Sleep is the great restorer and to be deprived of it is vital to health. It is a common indisposition, nervous derangement or mental worry. Try a regular dose of Paraffin and Vegetable Fills. By regular doses the action of the stomach, where the trouble lies, is relieved, and a sound and healthful sleep will follow. The Dr. Willard's Medicine Co., Brockville, Ont.

White oilcloth is the best covering for panty shelves. Spread red pepper around the edges to ward off the insects.

"Well, how do you like your job?" queried the inkwell to the new blower.

"Oh, I think I'll like it all right," replied the blower. "It is certainly absorbing."

Sundae School Teacher—"If you are going to go to school, Willie, you will have a gold crown on your head."

Willie—"Not for mine, I had one of them things put on a tooth once."

Puck.

A Dilemma

"What is young Nobiel worrying about?"

"Why, his first client. If he tells her she hasn't any case, she'll go to another lawyer; if he tells her she has an case, she'll go to another lawyer—and if he tells her she has one, she'll go to another lawyer."

Bare and After

"Oh! snow, chaste snow.

As pure as though

From heaven you come

To us below!

Shining in half rain;

You're off again—

Oh! lush.

Minard's Liniment Cures Dandruff

Canada Cement Company, Limited.

Annual Report of the Board of Directors.

TO THE SHAREHOLDERS:

Your Directors beg to present herewith the annual statement of the affairs and financial position of the Canada Cement Company, Limited, as of the 31st December, 1910.

In presenting the Balance Sheet, we call attention to the Company's strong financial position as disclosed by the large amount of cash on hand, and other quick assets, and the comparatively small amount of current liabilities. After providing for interest on our Bonds and Dividends on our Preferred Stock for the year, we have been able to set up reserves for depreciation, extraordinary repairs and renewals, bad debts, etc., and carry forward a substantial balance to Surplus Account.

The consumption of cement during the past year was not as large as anticipated. Our business also suffered on account of the Railways, not being able to meet our full requirements for cars during the heavy shipping season; consequently, we carry over from last year 751,116 barrels of cement.

Early in 1910 the price of our product was fixed at a lower price than cement had ever been sold for in Canada, excepting for a short period in 1909, but your Directors are pleased to state that the anticipated savings in manufacturing and distributing our products were such that they were able to still further reduce this price.

We trust, when you consider the above mentioned conditions, and also the fact that during 1910 our plants were only operated to 57.6 per cent. of their capacity, the profits shown will be satisfactory to the Shareholders.

During the current year we look for a larger natural demand, which demand will be stimulated by continuing to manufacture a strictly high grade article, and by selling it at the lowest possible price. This anticipated increase will enable us to operate our plants to better advantage than in the past, but we do not expect that the demand will be sufficient to enable us to put into operation either of the two plants which have been idle since the organization of this Company. However, it is confidently expected that the increased demand, and increased output, will result in further savings in the cost of manufacture and distribution, and it is the policy of your Directors to give your customers the benefit of these reductions.

The Shareholders' profits will depend on the increased volume of the Company's business, the policy of the Company being the maintenance of such a stable position as will insure regular and uniform payments of interest on its bonds and dividends on its Preferred Stock, and at the same time be in a position to withstand any unforeseen emergency that may arise consequent on business depression or otherwise, which condition naturally necessitates the accumulation of, and the maintenance of, a large cash reserve.

It is also the policy of the Company to equalize the price of cement throughout Canada in so far as the physical conditions make such possible, and in furtherance of this policy, your Directors have arranged to purchase a site near Winnipeg, on which they will erect, this year, a mill to grind clinker, which clinker will be shipped from one of our Eastern mills. The buildings, machinery, etc., will be planned so that, should it at any time in the future be advisable, a Burning Department can be added, and the clinker produced on the property.

And further, an agreement has been entered into whereby this Company expects to acquire, in the near future, a property at Exshaw, which, added to our Calgary plant, and the projected plant at Winnipeg, will put us in the position of anticipating any extraordinary growth in the consumption of cement in the Great West.

With a view of educating the public, and popularizing the use of cement, in addition to the ordinary advertising, the Company has published a small book illustrating some of the many uses to which cement may be put, for which book there has been a great demand, 25,000 applications for same having been received during the past six months.

For the purpose of stimulating interest in the Company on behalf of the Employees, both in efficiency and cheapening production, as well as creating a feeling of mutual goodwill, your Directors deem it expedient to introduce a system, already adopted by several large industrial corporations, with beneficial results, viz., to enable employees to become the possessors of Preferred and Common Stock at prices which will be attractive to them, the employees paying a fixed amount per share per month out of their earnings, and the Company carrying the stock for them, charging a rate of 5 p.c. interest. If the plan is put into effect, all dividends will be credited to the employees applying for the stock. Said stock will be held in trust for the employee for a term of five years, excepting in exceptional cases, such as death, when his heirs will receive what benefit a deceased employee has derived from subscribing to the stock.

Your Directors feel that the policy, as herein outlined, will, as nearly as possible, make the interests of the consumers, the employees, and the shareholders identical, and will inure to the most enduring and beneficial results for all concerned.

All of which is respectfully submitted,
On behalf of the Board of Directors,
WILLIAM C. EDWARDS,
President.

FROM EVERY CORNER OF THE DOMINION

COME REPORTS OF CURES MADE BY DODD'S KIDNEY PILLS.

Magnolia Islands, Island, Havre Auber, Quebec, tell of Mrs. Cormier, a sufferer for six years, who was made a new woman by Dodd's Kidney Pills.

In the Good Old Times. The brand of soap in use in the extraordinary passion by the Parliament in 1647, says a London paper. Any able-bodied man or woman found loitering or not working for the wages of the day was liable to be arrested and brought before two justices of the peace, who, upon confession or on the proof of two witnesses, "shall cause him to be bound with a hot iron in the breast the mark 'V' and adjudge the said person living so idly to his master, to be bound to work by beating, chaining, or otherwise." If convicted of running away during his apprenticeship, the master was then obliged to bind him on the forehead or the cheek with the letter "S" and then adjudged to his master as a slave forever. For running away a second time the penalty was death.

Birds Are Early. Rev. Mr. Philip, of Essex, referring to the large variety of spring birds, said: "I have been surprised at the early coming that I have ever known and I have kept track of their migration for many years."

Henry III: Introduced Grain. The grain, as a unit of measurement, was introduced by Henry III, who ordered a grain of wheat gathered from the hidden of the ear to be the standard of weight.

He's Surely One. "Pop!" "Yes, boy." "What is an ultimate consumer?" "You are, my son. You're always the last one to leave the table."

An Unfalling Sign. "I'm afraid Ma's second marriage is a failure." "Did she say so?" "She's beginning to speak well of her first husband."

Cuticura Soap & Ointment are sold by druggists everywhere. Foster Drug & Chem. Co., Boston, Mass., manufacturers. See our Catalogue Book on the care of skin and scalp.

Easter

We are now at the time of the year
when we are reminded more plainly
than at any other time during the
365 days of the greatest crime that
has ever been recorded in the history
of the world, or that has ever been
enacted since the first faint flush of
the dawn of time—the death of Jesus
Christ, which is commemorated on
Good Friday. But closely following
this, there is the anniversary of one
of the most glorious and greatest
events, equal only to the birthday of
the world's Great Redeemer—the
resurrection of the Saviour of this
sinful world, which is celebrated
Easter Sunday.

Good Friday. Sacred as the com-
memoration of the crucifixion of our
Lord. From very early period this
day has been kept as a day of
mourning and of solemn and melancholy
ceremonial. In nearly all
churches throughout Christendom
this day is celebrated with special
solemnity. Although in Scotland
the day meets with no peculiar at-
tention except by members of the
Episcopal and Roman Catholic con-
fessions. In the early times it was
one of the two principal days celebra-
ted by the Christian church, and in
memory of the crucifixion, was called
by the Greeks "Pascha Stearinomion,
or the Pasch of the Cross."

Easter. The festival of the resur-
rection of Jesus Christ derives prob-
ably its Teutonic name from the
festival of the goddess Ostara. Prior
to the eleventh century, the celebra-
tion of Easter lasted several days;
since then, however, it was limited
to three, and in later times, generally
to two days. It was formerly the
favorite time for performing bat-
talion. The courts of justice were
closed, and alms dispensed to the
poor and needy, who were even
feasted in the churches—a custom
which led to much disorder. Slaves
also received their freedom at that
season; and as the austereities of Lent
were over, the people gave them-
selves up to enjoyment; hence the
day was called the "Sunday of joy."

Many of the popular observances
connected with Easter are clearly
of the morning or last, and also of the
opening year or spring. The Anglo-
Saxon name of April was Eostremonath;
and it is still known in Germany
as Ostermuth. At the rising
of the natural sun, and at the awak-
ing of nature from the death of
winter, became joy at the rising
of the sun of Righteousness—at the
resurrection of Christ from the grave.

Editorial Brieflets**A Joyful Easter.**

Fresh eggs, we mean new
laid eggs, at Easter have
something about them that a
turkey has at Christmas.

Jack Johnson is badly needed
in some of Blairmore's back
yards. He's the boy to clean
'em up.

Easter reminds us of eggs,
and, as an old farmer once re-
marked, "it is lucky for us all
that the hens are not out on
strike."

Some of the Ottawa papers
say that Hon. Clifford Sifton
may join the Conservative
party. But, then, those Liberal
organs are always saying un-
pleasant things about the oppo-
site.

Says Brear Walker, of the
Enderby Press: "When a duck
lays an egg she just waddles off
as if nothing had happened.
When a hen lays an egg there
is a h—of a noise." The hen
advertises hence the big demand
for hens' eggs especially
at Easter time.

Now, that all trouble over
the Blairmore cemetery is ap-
parently over, would it not be
a good move if Frank and Lille
joined Blairmore in making it a
respectable place in which to
bury the dead? The Blairmore
cemetery is often used by Lille
and Frank people, and we believe
that they will immediately
see the fairness of our suggestion.

John Herron, our member in
the Dominion house, is showing
his deep interest in matters
which pertain to the welfare of his
constituency. Practically
nothing had been said at Ottawa
regarding the present deadlock
which prevails here between
the miners and operators until Honest John interceded on our behalf with the
result that the government has
promised to appoint a board of
enquiry if an agreement between
the operators and miners is not soon reached.

The Blairmore council is
looking for a suitable piece of
land to use as a nuisance
ground. They also want a
place on which to erect an
isolated hospital and a pest
house. The pest house which
Blairmore has at present is on
the road and must be removed.
The most suitable place so far
considered is a ten-acre piece
south-east of the town. We
would like to point out to the
councillors the dire necessity of
having a nuisance ground, and
would urge upon them to take
immediate action and put an
end to the present condition
which is that of nearly every
back yard being a nuisance
ground.

**News of World-Wide
Interest From the
Canadian Metropolis**

(From Our Own Correspondent)

Montreal, April 12.—In this
great city of Montreal there is an
ever-increasing army of wage-earning
women. These girls and women are employed in schools,
offices, shops, private homes, and
other places too numerous to mention.
They pour into our city
from the country districts of Canada,
from the smaller towns and
villages. They come across the
ocean from the Motherland, and, in
small numbers, from the south.
Here they gather to work and to live.
They have to work, and they live as best they can.

Further than accepting freely of
their work Montreal has, thus far,
done little for this class of her
population. And Montreal is just
beginning to realize that she is in
debt. Shortly before Sir Thomas
Shaughnessy went abroad a few
gentlemen, most of them in the
ever-expanding millionaire class,
sat in the smoking room of the
Mount Royal Club. The question
of society's duty to the working
girl arose. The president of the
Canadian Pacific jumped to his
foot, paced the room a couple of
times, and thus expresses himself:—"The young men of our day
have everything. They have club
houses, they have well-stocked
reading rooms, they have comfortable
and convenient meeting
places. Our young women hear
about their ears nine hours a day
for six days a week. The rest of
the time they spend in the back
bed room of a boarding house
thinking about it. The more
pleasant and quiet you can make
your employers' surroundings the

more cheerful work you can get
out of them. We consider money
well spent on the C. P. R. if we
can eliminate noise thereby. The
other day I had several noiseless
typewriters installed. Some of the
girls objected because the typewriters
did not suit them. Some genius
invented an attachment which
made the touch similar to any
standard machine a stenographer
happened to be accustomed to. It
cost no money and it cost the typewriter
people money to make the change,
but the change took a necessary
click out of life. If a man
invented an attachment that would
make a train noiseless I would
have it if cost a fortune. It's
the bumps and cicks of the day's
work that makes us weary."

It was this little speech, spoken
on the spur of the moment, which
sowed the seed for larger things.
A real home for working women
was suggested—a home embodying
all that that dear word really
means. These same millionaires
got their heads together, an architect
and a contractor were sum-
moned, plans and specifications
were called for, inquiries were
made as to how other cities coped
with the problem, and the ball
was set rolling. Montreal is to

have a half million dollar hotel
exclusively for women. It will be
an Aiamian Eden so to speak,
and just as unique and tranquil in
many ways as the one only and
original Eden. It will be built
either on Sherbrooke Street, op-
posite the Royal Victoria College
or on Dorchester Street, not far from
the Y. M. C. A. building.

Because of an increased flow of
immigration from continental
ports to Western Canada and an
increase in the use of the St. Lawrence
route by continental passengers
travelling to points in the
Western States, two steamers of
the Red Star Line have been
transferred, and will ply between
Rotterdam and Quebec instead of
between Antwerp and New York
as hitherto.

They are the Samland, and the
Gothland, and will be included in
the Canadian line service.

Increases to the fleets of the
White Star—Dominion, the Thom-
son line and the Allep line have
also been announced. Peculiarly
enough in almost every instance
the vessels being taken from
the New York trade to the St.
Lawrence—a small fact in itself,
but showing plainly in which way
the wind is blowing.

Correspondence

Frank, Alta.,
April 4th, 1911

DEAR MR. EDITOR,

In a recent issue you made editorial reference to Hawthornwhite, a of Nanaimo. In your estimation he has done several terrible things which no Socialist should ever do.

Now, it is probable that your statements are incorrect. Most stories gain a great deal in transit, and in my case, it is probable that the "truth is father to the thought."

Even if Hawthornwhite is about to secure a \$30,000 house, which we question, there are quite a few of us who cannot, for the lives of us, understand why a Socialist has not as much right to a \$30,000 house as anybody. There are many legitimate methods open to a member of Parliament for self-enrichment. It is certain that Hawthornwhite has neglected such opportunities in the past on account of conscientious scruples. Still there is absolutely nothing in the teachings of Socialism to prevent the securing and amassing of any degree of wealth which the individual may secure honestly or dishonestly under the capitalist system.

Christ said "Lay not up for yourself a treasure on earth," yet our churches today are pandering to the support of wealthy men. Socialists should not be blamed for following such an illustrious example especially as their movement does not teach them otherwise.

You refer to the capitalist as "the hired class." If the editor understood better the teachings of Socialism, he would see the fallacy of such a statement. Socialism can certainly never be accused of favoring class privilege. Until a man gets the Socialist conception he may easily blame his sufferings on great capitalists but Socialism removes the blame for our conditions from any individual whatever. The evils of capitalist society are due to false economic principles and to the institutions of private ownership of industry and of production for profit instead of production for use. The only remedy is that the abolition of that order of society and the inauguration of another order upon sound principles; the social democracy based on common ownership of industry and production by the people for the people's own use. There are millionaires and even capitalists in the socialist movement. Why should there not be?

Will Hawthornwhite abandon the cause of Socialism? "Once a Socialist always a Socialist." Bland and John Burns may join capitalist parties but the Socialist conception of economics and history go with them wherever they go.

Those who know the member for Nanaimo state that he shows no sign of flagging zeal in the cause of Socialism. We trust him till he does and fight shoulder to shoulder for the dawning of the "golden age." The Trust will own the Nation until the Nation owns the trusts.

K. KINGSTON.

Sheldon on the Power of the Press

Sheldon blames the newspapers for his downfall. Quite correct. Moreover, the newspapers are prepared to assume the full responsibility for cutting short a financial career, which, had it been allowed to continue longer, would have only resulted in more people being victimized. Legitimate enterprises cannot be ruined, but only helped, no matter how much newspaper publicity is directed their way. Sheldon's complaint is just, but it is a real tribute of the usefulness of the press. — Ottawa Evening Journal.

PROMOTER AND PRIEST

FATHER PARADIS IS A UNIQUE FIGURE IN THE NORTH.

The French-Canadian Who Was Once a Teacher of Civil Engineering at Ottawa University For Six Years Was Also a Lawyer, and His Skill Bankrupted a Lumber Company—Owns Forty-Five Claims.

One winter on the Gatineau River a settler built "a good, big cut of timber." S. H. Horner, in the Toronto Weekly Star, writes: "In those days a settler was entitled to the timber which grew on his own place, and he could sell it to the lumber company on the river. The lumber company would measure it, and pay so much a foot for it. The settler had to pay taxes, and he could not wonder how it was he could work all winter and receive so little for his labor, to say nothing at all about the cost of living. The lumberman paid him to himself to be sure, but he could estimate more in his cut than the lumber company's saver could, and he suspected something was wrong."

This sort of thing, however, had been going on for years. There seemed no help for it. The settlers were poor, and the Canadian government did little to help them. There was no education. There seemed no way of checking the lumber companies save by appealing to the law. The law sounded like a good idea, but it was not. The settler himself had to be sure, but he could estimate more in his cut than the lumber company's saver could, and he suspected something was wrong."

"I will scale your logs," said the priest. "You may trust me." That priest, a teacher, had taught engineering at the University of Ottawa for nine years. He could scale logs and do a great many other things. His name was Father Parados, born in Kouroune, County, "three weeks below Quebec."

Father Parados scaled up the log as tall as Gatineau had ever seen, and as wide as Gatineau in the river inside the boom, and found the settler's suspicions fell short of the mark. On his own responsibility he broke the stones, and the company's scales, and placed them with his oven. Then he altered the company's tally to agree with the true measurement, and left word that in case of a dispute he was prepared to call upon him who was called upon."

He was called upon. The company paid full price for the logs and sued Father Parados for damages for false scales. The reverend father pleaded his own case. Law, too, had borne out of his remarkable education. The court decided in his favor. The lumber company appealed again. Father presented his own case, and again he won. There was a further appeal. He won in the Supreme Court, the court of the king in the Privy Council, and the reverend father, nothing daunted, crossed the Atlantic and went to the habitat a battle-weary soldier in England, and was won, with costs. This, of course, was final. The lumber company was done. Legal expenses had amounted to a distance height. Unlike the settlers, they had not been able to present their own case. Other misfortunes pressed upon the company, and it was but a short time until one of the largest in Ontario in that day, has fallen in, and the machinery has been taken away and sold.

The company had now in the Porcupine country. They now a stoppage place on the all-road road, and he is the prospector and promoter of the Bell Mine. His own claim of 45 claims in the north country, although the prospector of the Ben Trovato,

Father Parados, is one of the most famous and enterprising promoters of New Ontario. Sixty years of age, he is as straight as a wire, and as sound as an athlete. The very last time I saw him, in the centre of Daltons Township, a single mile south of the Hollinger mine, to the railway at Kelso, a distance of forty odd miles, standing in the middle of the afternoon sun, he had sat all night, with the thermometer down to about 40° below! He has the face and head of a man in middle life, and the body of a child. He came north thirty years ago in response to the old craving for the wilderness for which he had always been averse. He has noted. The miseries of the "courreurs des bois" combine in Father Parados with something else—the desire to be practical, to be something useful. It was the case of Father Parados' activities that brought about a rupture with his bishop. There was too much material business about Father Parados, and the spiritual element was like to be overbalanced.

Father Parados has been a priest, a lawyer, a farmer, a minister, a doctor, a lodger-house keeper, and a promoter. He is 62 years of age, but still as young as a city man in the prime of his life. He wears his clothing and doesn't cover his ears or face on the coldest of days.

"I stoop," he explains, "hold my breath, and cause a flux of blood to the head."

As a scientific method for keeping one's ears from freezing, the formula has been suggested to me by Mr. Alice, it is typical of the mind-over-matter type of the Rev. Father Parados of the Frederick House.

Her Own Ticket.

"Well, of course, I don't know how the young man will turn out. Marriages are a lottery."

"Yes, mamma, I know, but a girl should hardly be expected to let her mother select her ticket."

WOOD BLOCK CURLING.

Few Early Exponents of the "Rearin' Game" Had Real "Stones."

In an article on curling in Canada in the Canadian Courier, A. W. Carson has referred to the days when wooden blocks were used.

There were very few stones in Canada before the sixties; though the first stone was laid in 1861, officials at Ottawa played with the granite.

The blocks were hardwood, larger at the bottom than the top. They were about two feet long, and the handle was made of an old piece of wood that could be found.

It was a good deal of trouble in the different towns where the first pair of stones arrived. The owner would, without exception, want to play his forty pound stones against his five pound blocks.

One game was unsuccess-

fully ended when the rocks

were broken.

It is the easiest part of a man's天然的才能 to decide as to whether the collective Macs do not exceed the sons, sons, sons and wives of the rest of the world. One pair of "Ailes Craigie" and as the players in those ancient days were all just fresh "free old Scotia" it caused quite a tug-of-war at startings when they paraded with the whereabouts.

A pair of curling stones in those days were a good deal of trouble and cost, for the simple reason that if you lost them you had to wait for a pair to come from the old land-keeper.

It, perchance, a stone was broken by the man who broke it had to pay for it.

That was one of the stringent rules of the game; and force of public opinion made it a good rule to observe.

They tell a story in a town of the north of Scotland of a person who had lost the sum of dollars calculating without a whisper.

One day, in a close, hard game, an opponent, playing on running stones, knocked his stone.

That man raised more stones.

That was in the Mexican regular army when they were chasing them around or being chased about.

But while it is a satisfying thing to be a member of a molding and ubiquitous family, it has its disadvantages.

A person who does not have the name finds it easy to walk up to one who has it and say: "I'd like to make a few \$10 bills tomorrow, will you?" Now you couldn't act in the same familiar, easy fashion with a man who was M. Simcock, or Jameson, or Petersen, or Berkowitz, or Simkovitch, or Mandelson.

Any name that inspires you to put it in your mouth is a good name.

"RATS! MR. SPEAKER!"

M.P.'s Who Have Defied the First
Commissary of England.

"I have only been really afraid of
two men in my life," a well-known
British M.P. recently declared, "and
they are Dr. Ramsay MacDonald and Mr. Speaker. Fea-
ter at Rugby, and Mr. Speaker. Fea-
ter of the two, the Speaker was much the
more formidable."

Curious differences that hedge
the Chair today. How different it
was in some past centuries the follow-
ing extracts from the "Journals of
the House" tell us. Thus Sir Edward
Bacon, who was a Member of the House, was ad-
vised by Mr. Speaker that Sir E. Herbert p-t not off his hat to him,
but put out his tongue and popped
his mouth with his finger in anger.

A Member of the House was ad-
vised by Mr. Speaker that Mr. T. was
in a loud and violent manner, stand-
ing near the Speaker's chair, cried:
"How! How! How! How! How!" in
such a terror and concernment of the
Speaker and the members of the
House."

A third irreverent member, who had
drunk too freely but too well, once
actually called on "Mr. Speaker for
a song!"

It is small wonder that in those
days the speaker was thus openly
flouted and laughed at, for he was
mostly a weak-kneed creature of
court or of faction—a giddy lackey
who cringed to power and knew not
right from wrong.

Rich travelled before Henry VIII,

and compared his justice to Solomon,
for strength to Samson, and for
beauty, and came to Alfred the Great.

Even Mr. Speaker fell on his knees before Wolsey
with abject humility. Velvelton apolo-
gized humbly for his small stature
and soft and bashful nature; and Rich
told him of his great tolerance for his "bad
sense."

Of a very different metal, however,
was Sir Edward Seymour, the hale
and sturdy son of the Duke of Somerset,
who, when Charles II summoned him to attend in the
Upper House, sent back answer that he
would be "born by wild horse" before
sooner than quit the Chair.

When the Earl of Pemberton once
passed him with a familiar nod, Sey-
mour promptly gave him instant arrest,
and on a severe occasion, when the
Speaker was in a rage, broke down on the way
to the House, he stopped the next
vehicle that came along, turned its
occupant out, and took his place.

It is a good rule for you to
not walk in the streets than the Speaker
of the House of Commons...

Sir John Tipton, another amanuensis
of the weak-kneed, did not even have
a severe lecture, and told him that he am a horse who was "no
better than they ought to be"; and Sir Fletcher Norton, Earl of Derby, II,
had a more extravagant, which
cost him his Chair.

Among many remarkable Speakers
of past conjecture were Sir John Popham,
of whom it is said he had a
severe attack of the gout.

Popham was kidnapped as a child,
brought up among gypsies, played the
role of highwayman, and for fun
it is said, sold his profit—and died
as Lord Chief Justice.

It was Popham, by the way, who,
when Queen Bess asked him "what
had passed in the Lower House,"

gravely answered, with a twinkle in
his eye: "Seven weeks, your Majesty."

Trevor's career was equally adventurous.
From being a scholar he became a
houseboy to Speaker in the Commons,
filled his pockets with bribe, and finally has to proclaim his own
dishonor by declaring from the Chair
that he died in the House of Commons.

John Frowd is guilty of the high
crime of misdeemeanor.

Among Trevors' other physical pec-
uliarities was a chronic sore head.

He was in the process of the "catching
of his eye," so full of confusion that it
was necessary to call the member by
name, a practice which has since pre-
vailed.

Speaker William Treaham was killed
by highwaymen, Thomas Thorpe
died on the scaffold, and Sir George
Wentworth was cut through the skull
on Tewkesbury Field.

First Night Cough Appears.

An inserted slip on overalls
in the King's Royal Guards, London,
the first night that Laurence Irving
and his company presented "The
Lily" said: "The management beg to
state that any one troubled with
this malady should apply to the
two ingredients is what produces such wonderful
results."

Speaker William Treaham was killed
by highwaymen, Thomas Thorpe
died on the scaffold, and Sir George
Wentworth was cut through the skull
on Tewkesbury Field.

It is a serious mistake.

Ask and don't tell why you have

the use of purgative medicines, weeding
the system, but does not cure disease.

In the spring the system
is not building up—purgatives cannot
do this.

Happenings in and Around Frank

R. G. Rice, of Toronto, was in town on Monday.

Rev. K. Kingston was in Colman on Monday evening.

"Bob" Petrie and "Billy" Miller will give a ten-round boxing contest in the Miners' hall on Monday evening next.

H. T. Lloyd, electrical engineer of the Canadian Coal Consolidated returned from a trip to Calgary and Edmonton on Saturday last.

Ice cream and refreshments will be served on the veranda or the inside of the Rocky Mountain Sanatorium every Wednesday and Sunday all day.

W. R. Wilson, the newly appointed general manager of the Crow's Nest Pass Coal Co., arrived in Frank from Toronto on Monday morning. He left at 7 p.m. for Fernie.

J. H. Mollett and H. A. McKillip, both of Lethbridge, came to town on Sunday and left on Monday for the South Fork of the Old Man river where they will spend some time fishing.

Every family and especially those who live in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is nothing better when it may be wanted in case of any accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by dealers everywhere.

A fifteen-round boxing contest will be given in the Miners' hall

on Wednesday evening next between Charlie Burrows and Jack Pigeon. Two fast preliminaries will also be given the same evening before the main bout will take place.

R. G. McNeillie, district passenger agent of the C. P. R. at Calgary, is in the city today. He is getting facts and figures from the local ticket office for his report on the projected scheme to put on a dining car service from Lethbridge to Calgary on the afternoon trains. He is also investigating the idea of putting on week-end excursions from Lethbridge to Frank for the summer. — Lethbridge Herald.

Lewis Stockton came down from Frank on Monday and presided at the conference of the Western Coal Operators Association, held at the Sanatorium the same day. He was not looking too well and was apparently in very bad humor. Your correspondent could obtain no information from him regarding the present deadlock between the operators and the miners, and the object of conference. He was as much an oyster.

Your tongue is coated.
Handsome come and go.
These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by dealers everywhere.

Mr. Lang's Monster Sale

A. V. Lang is putting on a mammoth sale. He is offering his goods at prices that have never before been known in The Pass. It is already the main topic around town and a very large business is in store for Mr. Lang so long as the present exceptionally low prices prevail at his large and well stocked establishment. The citizens of Frank and nearby towns would do well to visit Mr. Lang's store during the great bargain sale when goods will be sold at astonishing low prices.

The U. M. W. of A. are trying to bring about a provincial strike in Nova Scotia.

Coal Mines Still Idle The End Seems Near

The strike has not yet been settled and the coal mines in this district are still idle. However, in view of the interest taken in the matter by the government, and of the action of the Western Coal Operators association in agreeing to a board of enquiry, and also of the miners in doing their part to hasten an early settlement, it is generally believed that the end of the strike is but a short way off.

Baseball Players Meet

The Blairmore baseball enthusiasts met in the C. P. R. station on Friday evening last. The Blairmore club was reorganized and the following officers elected: Hon. Pres. R. W. Coulthard; Hon. V. P. T. Frazer; Pres. H. E. Lyon; 1st V. P., C. J. Pegg; 2nd V. P., H. F. Weber; manager, W. Adamson; Sec-Treas., G. Pasmore.

The following committee was appointed to arrange for a smoker which will probably be held on Saturday of next week: G. Ingham, T. Burns, A. W. Polson, J. Hennesey and H. Benson. G. Pasmore, J. D. Isarrett and L. Gales were appointed to interview the coal company and other large property owners regarding a suitable ground on which to play. Much enthusiasm was shown and it was very plain that Blairmore had many good players. A league, called the Crow's Nest Pass League will likely be formed. Hosmer, Michel, Coleman, Frank and Bellevue will be asked to come in with Blairmore and form this league.

Chamberlain's Stomach and Liver Tablets assist nature in driving all impurities out of the system. Insuring a free and regular condition and restoring the organs of the body to health and strength. Sold by dealers everywhere.

Here and There

Fifty strikers have been arrested at Prince Rupert, B. C. All but one were foreigners. Strike breakers have been brought in.

Rev. W. A. Swaine, vicar of St. Aidan's church, Leeds, England, has resigned to become a missionary in the Crow's Nest Pass, with headquarters at Lundbreck. Mr. Swaine is a brother-in-law of Lord Ardyle.

The Copper River and Northwestern railway between Cordova and Juneau, Alaska, has just been completed. This railway is owned by the Guggenheim-Morgan Syndicate and was built at a cost of \$20,000,000. The construction of the road was one of the most remarkable engineering feats of modern times.

The steamship Harlow, owned by J. A. Farquhar & Co., Halifax, Nova Scotia, was lost on Friday last in the Gulf of St. Lawrence.

The steamer was proceeding the sealing voyage in the Gulf, having sailed out of St. John's, Nfld., on March 13th, with a Newfoundland crew numbering about 160 men.

On the night of the 7th inst., the ship became jammed and was crushed to pieces by the ice does; but the crews were all landed safely at Cape Breton. The Harlow was a staunch boat of about 300 tons, and for years plied in the passenger and freight service between Cape Breton and Newfoundland ports, and in late years prosecuted the seal fishery in which she proved very fortunate.

Diarrhoea should be cured without loss of time by a medicine which like Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant and safe to take. Sold by dealers everywhere.

A vocal contest will be given in the open house here on Monday evening next. Mrs. Bessie Evans-Dugan, of London, Eng., will act as judge. Prizes will be awarded.

Happenings in and Around Bellevue

J. Brownrigg has been in Homer for the week visiting relatives.

E. W. Christie and family are again isolated on account of scarlet fever.

Mr. Holroyd and the Rev. T. D. Jones would like to hear of any chessplayers in the neighborhood.

The subject of the sermon at the Methodist church next Sunday night will be "Life's Possibilities Beyond Death," and the preacher will be Rev. T. D. Jones.

The young men who last week went to Calgary seeking work have returned. The spring immigrant is coming and the labor market for some weeks is overstocked.

The R. N. W. M. P. are establishing headquarters here. We have an ideal home for every kind of settler. The town is noted among mining towns for its orderliness, and it is understood that the coming of the police does not suggest any departure from the traditions of the past, and is only the result of the centrality of Bellevue at last being recognised. Hillcrest, Lille, Maple Leaf and Passburg are within easy reach in case of emergency, and the R. N. W. M. P. seek after the greatest possible efficiency in this new move.

The School Board trustees have for some time been considering the question of the erection of a new school. They have recognized for months that the present accommodation is inadequate, but their hands have been tied by lack of means to grapple with the situation. Recently, however, Bellevue was constituted a village for school purposes and this has opened the way for action.

W. H. Chappell, junior, has been appointed assessor, and it is expected that funds will be forthcoming sufficient to engage the services of two regular teachers as soon as there is sufficient accommodation.

Plans have been drawn out for a school having four rooms and a basement, which when specifications have been made will be submitted for tenders, then for the endorsement of the government and then to the ratepayers for their sanction. The school will be one of the most modern in the Pass and is badly needed.

School at present is held in a house 24 x 24 and one teacher has charge of 72 pupils of all ages and nationalities, whilst numbers of children are compelled to remain at home owing to lack of room. The teacher, Mr. Anderson, is doing splendid work in spite of all the difficulty.

Coleman Notes

The International Coal & Coke Company is installing more boilers and other machinery at their already large and well-equipped plant.

The members of the local Orange Lodge have decided to join their brethren at Blairmore for a monster demonstration on the 12th of July.

A successful entertainment and social was given in the Institutional church on Monday evening. A large number came in from Blairmore and Frank.

A vocal contest will be given in the open house here on Monday evening next. Mrs. Bessie Evans-Dugan, of London, Eng., will act as judge. Prizes will be awarded.
